

Communication and InfraRoom Organization

Infrastructure Room Meeting #1

Monday 27 October 2014

Item 4 – 1535-1615

Communication and InfraRoom Organization

- Current organisation and bottlenecks
- Management support
- Conclusions

Current Organisation and Bottlenecks

- Current lack of engagement by InfraCom with the InfraRoom Steering Committee in the on-going management of InfraRoom (Nobuyoshi Yabuki)
 - Is there a need to re-structure InfaRoom committees?
 - How to address this issue?

Management Support

- There seems to be a problem with maintaining communication and tracking activities
- as a voluntary association, InfraRoom members are inevitably very busy and with the best of intentions, these things fall through the cracks ...
 - Is there a need / opportunity for better management support?
 - Is funding needed?
 - If so, how can we move forward?

Conclusions
