

ITM/IC report buildingSMART Norway

Copenhagen, Denmark September 2010

Organization/Membership

- Office with **two employees** established
- **66 companies** as members or partners and the numbers are still raising

BIM/buildingSMART - actual projects

- **Several real BIM/buildingSMART building projects** ongoing in the industry.
- Projects combine open BIM and LEAN
- Several client organizations **defining demands for FM from BIM.**
- Architects, consultant companies and contractors are implementing BIM on a large scale

Priorities for summit

- Support the process of building **stronger chapters.**
- Continue the work with the **an International User Group (IUG)** based on Chapter/national user groups.
- **Lower the entry level** to “open BIM standards” for down-stream applications.
- Emphasize the importance of the **IFD Library** and the **implementation of IFD** in **IFC** software.
- Emphasize that **implementation of IFC** and **rules for certification** of software has to **support users needs** expressed by IUG.

ITM/IC report buildingSMART Norway
